# WECOOP

EU – Central Asia Cooperation on  
Water – Environment – Climate Change

## TRAINING AGENDA

### Introduction to Air Quality Management with a focus on Indexes and Inventories: the EU experience

*On-line, GoToWebinar  
23-24 September 2020*

#### Background

Since 1970s, the European Union has achieved a considerable progress in air quality management by improving the fuel quality, controlling emissions and integrating the environmental standards into the transport and energy fields. The EU provides the financial and technical assistance to different countries in the world, including to Central Asian states, to help them improve the national legislation and air quality management systems.

The EU-funded project “European Union – Central Asia Water, Environment and Climate Change Cooperation (WECOOP)” aims to enhance environment, climate change and water policies in Central Asia through approximation to EU standards and to promote green investments in relevant sectors with the aim of contributing to measurable reductions in man-made pollution, including CO<sub>2</sub> emissions.

#### Purposes

The purposes of this training are three-fold:

1. To provide a brief introduction of the main principles and methods of air quality management;
2. To share the EU experience;
3. To provide a theoretical base and practical examples.

#### Technical note

The meeting will be organised as a video webinar on the GoToWebinar platform, which can be used on a video system, PC, tablet or smartphone. The WECOOP team will contact in advance all participants for technical advice and, if necessary, connection tests.

#### Disclaimer

By registering to this event, the participant gives Stantec permission to process his or her personal data (incl. transfer of personal data to third parties only in cases specified in the current regulations) that is provided in the registration form. Stantec undertakes to process the personal data in compliance with the binding regulations (incl. Regulation (EU) 2016/679 of the European Parliament and the Council – “General Data Protection Regulation”). The registered participant may access and view the documents that contain his or her personal data on request and demand to edit or delete them.

This event may be recorded/photographed, and the images of part or the whole event may be webcast on the Internet and other channels. Participating in this event involves the acceptance of being filmed.

Time	Task/Content
<b>DAY 1</b>	
14:00 – 18:00	Welcome speech Training purposes and tasks
	Air Quality Management Principles in the European Union. Legislation.
	Air Quality Standards
	Air Quality Indexes
	Q&A
	Final remarks on Day 1
<b>DAY 2</b>	
14:00 – 18:00	Preliminary conclusions Introducing Day 2 agenda
	Urban air quality management: principles, methods, practices Air quality management
	Emission inventories for urban air quality modelling
	Q&A
	Conclusions, assessment and closing of the training
